SpaceTime
STUDENT COMPETITION & EXHIBITION

COMPETITION

The SpaceTime Student Competition & Exhibition is a juried student competition in fine arts print, poster design, animation, and interactivity. It provides an excellent opportunity for students working in computer based media to exhibit their creative work nationally and internationally. It is open to all students currently attending school.

Selected works or work segments from the entries may be included on the ACM SIGGRAPH Education Committee web site and in promotional materials distributed at the conference. 1st, 2nd, and 3rd place winners will receive one Conference Access pass to the SIGGRAPH conference.

Call for Submissions: SpaceTime 2009
http://education.siggraph.org/students/students/competitions/call-2009

NOTE: Students may apply to BOTH the SpaceTime student competition AND to the SIGGRAPH 2009 professional programs.

If you are accepted to one, you remain qualified to be accepted to the other. Professional program submissions should be made through the conference site at
http://www.siggraph.org/s2009

EXHIBITION

Work selected from the SpaceTime Student Competition are exhibited in the SpaceTime Student Exhibition at the annual SIGGRAPH conference (located in the ACM SIGGRAPH Village for 2008).

Selected works will also tour nationally and internationally for one year with the SpaceTime Traveling Student Exhibition.

TRAVELING SHOW

The SpaceTime Student Exhibition is available to travel. ACM SIGGRAPH Chapters and many schools exhibit this work each year.

The SpaceTime Traveling Student Exhibition appeared at these locations in 2007/2008:

October 2007
Jessica Maloney   Ashland University

November 2007
Denbigh Starkey   Montana State University

December 2007
Melinda Robino   Olathe Northwest High School

January 2008
Marla Schweppe   Rochester Institute of Technology

February 2008
Anna Ursyn   University of Northern Colorado

March 2008
Lesley Campos and
Victoria Snabon-Heath   Art Institute of Tampa
