Amanda Tiffany: Past, Present, Future

Past

When I was a girl, I loved animals, and I was very, very shy. I was so shy that my teachers believed that I was actually unable to talk. I eventually got over it a little bit, but I am still a quiet person. When I was a little girl, I loved animals (especially cats). I dreamed that I was going to become a veterinarian, and take care of all of the sick animals I came across. As a little girl I also loved Harry Potter, playing outside, and music.

Present

Right now I am a student at the University of Northern Colorado, majoring in Art and Design with an emphasis in animation. I hope to be a straight "A" student, and hopefully graduate with honors. I am passionate about art, and I have a lot of big aspirations right now. I am still a huge fan of music although my tastes have changed tremendously. My favorite pass time between classes is reading a good book in the library.

Future

When I am older, I hope to work for Disney or Dreamworks as a character artist for their animated films. I would also be happy working as a background artist for Bethesda Softworks, a gaming company based outside of Maryland. If I get a job with Bethesda Softworks, I would love to work at their location in Montreal, Canada. I would love to travel and see the world more when I am older. Canada is the first stop.
