

The United States Family Educational Rights and Privacy Act of 1974 (FERPA) protects the rights to privacy for all students by placing certain restrictions on the disclosure of information contained in the student educational records.

This document allows you to authorize an instructor _____ (Faculty Name) and/or institution _____ (School Name) to disclose specific information from your educational record to be shared with the SpaceTime student competition and/or the Faculty Submitted Student Work (FSSW) Exhibition sponsored by the ACM SIGGRAPH Educator's Committee. This information could then be available at the annual SIGGRAPH conference and on the Education Committee website archives.

The inclusion of your work is an honor, but in order for your name to be included in the exhibit alongside your work you must give written authorization for your faculty/institution to release your name in association with the courses in which that work was created.

By signing the the form below you are authorizing the inclusion of your name/your childs name in association with the work and the courses and the school in which they were created.

I understand that I have the right to change my decision in the future. These changes would prevent the future inclusion of my name or work but would not remove prior work already included.

Student Printed Name

Student Signature
